DG ADVISORY

Subject : Proper Handling of Ghost Calls
LOB : All LOBs
Purpose : To provide clear guidelines for identifying and handling ghost calls, ensuring proper communication, documentation, and r

What are Ghost calls?

A ghost call happens when the recipient of the call picks up the telephone, yet there is nobody on the other end of the call and the caller does not leave a message.

In the event that you receive a ghost call, follow these steps:

1. Repeat your opening script twice and allow a 5-second pause for the caller to respond.
2. If there's still no response after repeating the opening script twice, deliver the ghost call script **two times**.
*"I apologize, but I am not receiving any responses. I will now disconnect the call to assist other customers. If you can hear me and require further assistance, please feel free to call us back. Thank you for contacting **insert closing script for your LOB** and have a wonderful day!"*
3. Disconnect the call.
4. Log the case in ServiceNow as outlined on this advisory.

Customer Record/Phone Number

- If a phone number is available in the caller ID, utilize it to log the case, entering **Anonymous** as the first name and **Customer** as the last name.
- If no phone number is provided or if the caller ID displays the corporate number (615-855-4000), proceed by using the **Anonymous Customer record (999-999-9999)** to create the case.

Store Number

Use **99999** as the store number to log the case.
